

Shivam Sharma

Surat, Gujarat, India

shivens006@gmail.com — +91-9460272387 — LinkedIn — GitHub — Portfolio

Professional Summary

Results-driven B.Tech Electronics and Communication Engineering student at **Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat** with strong experience in **full-stack web development, cloud deployment, AI-powered applications, and open-source contribution**. Built and deployed scalable MERN applications using **Docker, Azure Cloud, GitHub Actions, MongoDB, Next.js, and React.js**. Selected for national-level hackathons including **AI for Bharat** and **Google TechSprint Top 10 Finalists**.

Technical Skills

Languages: C++, JavaScript, HTML5, CSS3

Frontend: React.js, Next.js, TailwindCSS, GSAP, ShadCN/UI

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, Firebase, Supabase

Cloud & DevOps: Docker, Azure VM, GitHub Actions, CI/CD, Nginx, PM2

AI/ML: RAG, Amazon Bedrock, Claude 3.5 Sonnet, Titan Embeddings, Gemini API

Tools: Git, GitHub, Linux, Mongo Express, Jupyter Notebook

Soft Skills: Problem Solving, Technical Leadership, Communication, Collaboration

Experience

GirlScript Summer of Code 2026

May 2026 – Present

Open Source Contributor

Remote

- Selected for **GSSoC 2026** under Open Source Contribution and AI Agent tracks.
- Contributed to open-source repositories through issue resolution, UI consistency improvements, and collaborative GitHub workflows.
- Worked with Git-based contribution workflows including branching, pull requests, debugging, and CI validation pipelines.

ShutterSync Live Platform

Jan 2026 – Present

Founding Chief Technology Officer

Remote

- Led full-stack development and product roadmap execution for a photography platform MVP launched within 10 days.
- Improved website performance and accessibility, increasing site speed by approximately 30%.
- Mentored a team of 4 developers and coordinated agile workflows, code reviews, and modular architecture design.

Projects

FlowBoard – Full Stack Kanban Application

2026

React.js, Node.js, MongoDB, Azure VM, Docker, GitHub Actions

- Built and deployed a cloud-hosted MERN Kanban application using Azure Ubuntu VM infrastructure and CI/CD workflows.
- Configured GitHub self-hosted runners, PM2 process management, Nginx reverse proxy setup, and custom networking rules.
- Integrated automated deployment pipelines and handled secure environment variable management during production redeployments.
- Strengthened understanding of Linux systems, SSH authentication, VM deployment, and DevOps fundamentals.

Skill-Sync – AI-Powered Code Intelligence Platform

2026

Amazon Bedrock, RAG, Vector Embeddings, Multi-Agent AI

- Selected for Round 2 of the national-level **AI for Bharat Hackathon**.

- Designed an Agentic AI architecture using Claude 3.5 Sonnet and Titan Embeddings for adaptive code explanation workflows.
- Implemented Retrieval-Augmented Generation (RAG) pipelines with semantic search for large-scale code pattern analysis.
- Focused on reducing developer onboarding complexity through adaptive AI-generated explanations and multilingual support.

Vivo Health – AI-Powered Health Intelligence Platform

2026

Gemini API, Full Stack Development, AI Integration

- Selected among **Top 10 nationwide finalists** in Google TechSprint Winter Hacks (GDGoC 2025).
- Developed an AI-powered multilingual health platform capable of analyzing uploaded PDF lab reports using Gemini AI.
- Integrated Gmail-based synchronization, contextual AI chatbot workflows, and secure dashboard architecture.
- Built scalable full-stack workflows under hackathon constraints with focus on real-world usability.

Mini E-Commerce Application

2026

React.js, Express.js, MongoDB, TailwindCSS

- Developed a MERN-based e-commerce application featuring JWT authentication and CRUD-based cart management.
- Implemented responsive Glassmorphism-inspired UI with optimized frontend-backend integration.
- Created product seeding workflows for rapid environment setup and testing.

Education

Sardar Vallabhbhai National Institute of Technology, Surat

2025 – 2029

B.Tech in Electronics and Communication Engineering

CGPA: 9.8/10

Certifications

- Microsoft Certified: Azure AI Fundamentals
- Oracle OCI AI Foundations
- AI Agents Fundamentals – Hugging Face
- Digital Marketing Certified – HubSpot Academy

Achievements

- Selected for Round 2 of the national-level **AI for Bharat** hackathon.
- Top 10 Finalist – Google TechSprint Winter Hacks 2025.
- Selected Contributor – GirlScript Summer of Code (GSSoC) 2026.
- Successfully deployed full-stack applications using Azure VM infrastructure and CI/CD workflows.
